9. Remove the snack shackit is not needed in a community park. People bring their own food...maybe add a few more picnic tables and some barbecues for use.

We love Al Tahoe and spend a good part of our year here in our cabin that my grandfather built in 1932. We have been, and are, very tolerant of the city taking over this beach/park even though our understanding was from my grandfather and Frank Globin that the beach was deeded to the neighborhood of Al Tahoe....and this deed was destroyed in a fire at the Placerville Court House.

But now, we have a huge summer influx of visitors to the park and wedding rental which means speeding traffic (noise pollution), dog waste in the lake and park/beach, trash and neglect by those who have no interest in our neighborhood....only "using" it.

Each day I spend time, along with my neighbor, cleaning up the beach and the parks as needed. Due to NO patrolling or enforcement of park/beach rules, as well as how run down the park has become with no regular maintenance nor repair, it has become neglected and overgrown and very dirty....even though we try our best to hammer nails back into the deck/stairs, pick up trash regularly, and put signs asking for cooperation from visitors.

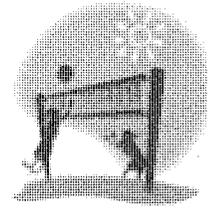

Please, don't develop the park/beach to encourage heavier use than already exists. This is a neighborhood and we want to enjoy our park and welcome visitors, not become irritated at the park not being maintained nor patrolled.....let's not encourage uncaring people to Regan Park through new development and advertising by the city and commercial businesses/hotels in the area.

Our sincere appreciation for any help you can give us in this matter.

Thank you.

4. What existing amenities are most important to you? Please describe.

I have no problem with the wedding area as (1) it is off to the side of the beach area and (2) it brings in revenue

The beach is only accessible when the lake level is low. I would use the beach if there was a permanent planned design.
