

How to Sign up for Reverse 911

To register to receive “Reverse 911” calls to either or both your home landline and your mobile phone line, go to <http://ready.edso.org/>. It is very easy to sign up and you are allowed to sign up two different phone numbers and two different email addresses along with your physical address.

Such emergencies could include but are not limited to:

- Evacuations
- Threatening floods or fires
- Hazardous material spills
- Terrorist threats and other urgent law enforcement operations

The El Dorado County Alert Notification System has made it easy to register your chosen contact information through the systems Self Registration Portal. You can then receive notification on your cellular telephone via phone call or text, or at your email address. It's up to you. To register your emergency contact information or just to find out more information about the system, go to: <http://ready.edso.org/>
If you receive an “error” message stating that your address cannot be found, simply “refresh” the webpage and try again. This should be the solution.
