

CASCADE KITCHEN

PROPOSED BUILDING FACADE

Project Address: 1030 Tata Lane, South Lake Tahoe, California

Project Description: Tata Food Hall is the adaptive reuse of a 12,800 SF vacant retail building located at 1030 TataLn, South Lake Tahoe, into a multi-tenant food hall and commissary kitchen. Tata Food Hall is positioned to serve both locals and visitors and will be designed as an experiential space that encourages gatherings and fun. The front of house will include a quick service market, cafe, five food vendors and a bar. There will be seating indoors and outdoors in a covered (and heated) patio. The outdoor space includes an area for lawn games and secured bike parking. There will be a take-out station near the main entrance to allow for efficient pick up of to-go orders, either by customers or delivery services. The back of house provides additional shared kitchen and storage space with flexible rental terms that allow caterers, food trucks, start-up or growing businesses access to a full commercial kitchen as needed without overcommitting to an independent space. There is also a private dining room and event space that can be rented by groups for special functions
